

Sisters and Brothers,

Easter is now behind us. I hope you were able to safely connect with friends and family to celebrate this most important holiday. Since my mom is 91, we decided to get together by "Zoom". What an experience! My brother and sister-in-law joined us from Texas along with my son and daughter and their families in Albuquerque. Since there were no church services for us, we took turns reading scripture to remind us of "the reason for the season".

I hope this finds all weathering this time of uncertainty by taking care of yourselves and providing what ever assistance to your families, friends and neighbors you safely can.

If you have been reading the posts of the elected grand officers, you will see, we have not been idle during this time. We have reached out to every district and chapter in the state to see how they are doing, to answer questions, to make suggestions and to offer any help where it is needed. We have also asked for help from each of you as to suggestions on how to move forward and have received much feedback. This, we will continue to do throughout the duration of this time. If you have a suggestion, a need, or just need to talk to someone, we are just a phone call away.

We are going to continue the weekly posts on the OES webpage and will keep you posted on our plans as they develop and pray that we can all get back together again soon.

Until then, stay busy and healthy.

God Bless,

Don Sultemeier WGP
