

Dear Sisters and Brothers,

Hello from Albuquerque. I hope this find you in good health. As you struggle to deal with this pandemic, know that the officers of your local chapter and the Grand Chapter are here for you. The elected grand officers have been meeting every Sunday working on dealing with the questions regarding the health and safety of our members. We have also had meetings with the Worthy Matrons and Worthy Patrons to see what their chapters are doing, and to find out what we can do to assist them.

When you elected these officers, both at your local chapter and the Grand Chapter, you were asked if you still desired that they fill the positions to which they have been elected or appointed. With an affirmative answer you put your faith in their ability to make the decisions that are in the best interest of the chapter. The officers also were obligated to do all in their power to promote the welfare and prosperity of our Order.

With that being said the officers of this state, both Grand and subordinate chapters, are working together to do just that. We are instructed Martha's lecture that a trustful faith is greater than, we need to have faith in our leaders as they work to overcome the adversities we are facing. Remember that "We walk by faith not by sight." Therefore, Sisters and Brothers let us pray for assistance and have faith that this too will pass, and we will be stronger for it.

Let us look for things to keep ourselves busy, take care of our mental health, and spread the love we have to those that may be alone. Look at this as an opportunity to get our name out there and show the public what we are about. Now for the all-important joke of the day. Important Laws Newton Forgot to State; Okay, you know Newton's Laws. But there are some laws Newton forgot to state in his lifetime! Here are the unpublished laws of Newton! Note: These things are just for fun. Don't take them seriously, even if they are true.

- LAW OF LINES:** If you change lines, the one you have left will start to move faster than the one you are in now.
- LAW OF TELEPHONE:** When you dial a wrong number, you never get a busy signal.
- LAW OF MECHANICAL REPAIR:** After your hands become coated with grease, your nose will begin to itch.
- LAW OF FACE MASKS:** After you put on the mask, your nose begins to itch.
- LAW OF THE WORKSHOP:** Any tool, when dropped, will roll to the least accessible corner.
- LAW OF THE ALIBI:** If you tell the boss you were late for work because you had a flat tire, the next morning you will have a flat tire.
- BATH THEOREM:** When the body is immersed in water, the telephone rings.
- LAW OF ENCOUNTERS:** The probability of meeting someone you know increases when you are with someone you don't want to be seen with.
- LAW OF THE RESULT:** When you try to prove to someone that a machine won't work, it will!
- LAW OF BIOMECHANICS:** The severity of the itch is inversely proportional to the reach.
- THEATRE RULE:** People with the seats at the furthest from the aisle arrive last.
- LAW OF COFFEE:** As soon as you sit down for a cup of hot coffee, your boss will ask you to do something which will last until the coffee is cold. I hope you enjoyed these, stay safe and may God Bless you.

In Star Love,
Jeff Satterfield
Associate Grand Patron
