

Dear Sisters and Brothers,

Normal, what is normal? It is different for me than for you. Here at the end of 2020, we all long to get back to OUR normal. Hopefully the new year will bring back some of the normal things we always used to do like regular meetings (face to face) of Eastern Star, getting back to seeing friends and family often and doing all the things that are normal for us.

The fact that a vaccine is now being distributed gives us great hope that a return to normal is on the horizon. We all create our own future. If you constantly dwell on being down or sick, that is exactly what you will get. Focus on always looking up and forward and you will be able to accomplish more than you think you can.

Please take good care of yourself and help take care of others if you can. New Years Resolutions are good if they are positive and last more than a few days.

This is our opportunity to begin anew.

Always remember that TODAY is the first day of the rest of our LIVES!!!

Star love and hugs,
Sue Fischer, Grand Martha
